

Final Mission Report

Mission Name: Canton Evidence Search
Date and Time of first call: 01/29/2022 - 1432
General Terrain: neighborhood, snow covered street and front lawn
Incident Type: Evidence Search
General Description of Mission: At 1430 Hours, Norfolk SPDU requested SERT assistance with an evidence search for an ongoing investigation into the off-duty death of a Boston Police Officer. The off-duty officer was hit and dragged by a vehicle at approximately 0030 Hours and his body was discovered at approximately 0645 Hours. A suspect vehicle had damage to a taillight. Norfolk SPDU requested SERT assistance in locating the victim's sneaker, red glass from the taillight, and clear glass from the taillight.
Final Mission Report: Seven SERT members responded to the scene. Canton had received over 18 inches of snow. SERT focused the search on the area the victim's body was found. The snow plows hadn't cleared the street all the way to the curb and there were large snow drifts extending into the street. SERT shoveled and carefully sifted through the area. SERT located the victim's sneaker and multiple pieces of red/clear glass from the broken taillight. All items were marked for mapping documentation and the evidence was collected by SPDU.
Final Mission Report By: Lt Kevin O'Hara #3042 - 01/31/2022 1125
